

A close-up photograph of a window blind with pleated slats. The slats are light-colored and feature a subtle, wavy pattern. A vertical cord runs through the center of the slats, and a cylindrical metal weight is attached to the bottom of the cord. The background is a soft, out-of-focus brown.

PLISADA XL (50mm)

Extra wide pleats for a striking accent.

With a width of 50mm, these pleated fabrics create a striking look in the interior. The horizontal line play of the pleats gives the interior a modern architectural look. With a wide variety of different fabrics and colors, the collection offers endless possibilities to create the desired atmosphere.
